

Activity Information

This information will be shared on the MechE Summer X 2020 website

Title: Crash Course in Photoshop

Instructor name: Mulan Jiang

Instructor email: mulanj@mit.edu

Description of the activity: Learn how to use **Photoshop** from a professional book cover designer! The first session will cover the basics. The second session will teach you how to blend photos, including layer masks, blending modes, clipping masks, layer effects, and more by walking you through how to build a poster. If there is interest, Mulan may teach some more advanced techniques as well. In between sessions, Mulan will also offer optional exercises to complete, such as creating a poster using specific tools, and provide feedback on your work. To participate, you will need **Photoshop** (you can get a 7-day free trial).

Participant preparation: None

Materials, tools, or other requirements: Photoshop

Specific safety considerations: Not applicable

Enrollment limitations: None

Activity schedule:

Session No.	Topic	Date	Start time	Duration
